Speaker: Professor Jikyeong Kang, DBA Programme Director,
Manchester Business School

The Manchester Business School DBA

- MBS doctoral programme consistently ranked No. 1 in the world by Financial Times.
- Part-time DBA aimed at global executives seeking a high level postgraduate qualification, without putting their careers on hold.
- Challenging, flexible, portable and international--research in action.
- Study a real business issue in depth and then immediately apply that knowledge in your working life.
- Ideal for senior executives, business owners, professionals entering consultancy and those responsible for ideas generation, business research and development in a commercial setting.
- Also for business school lecturers to further enhance their professional, research and consultancy credentials.

About Manchester Business School

Manchester Business School, University of Manchester is the largest campus-based business and management school in the UK--ranked first in the UK for business research and accredited by all three major bodies - AACSB International, AMBA and EQUIS with an extensive global network of Executive Centres in Hong Kong, China, Singapore, UAE, USA and Brazil.
