

## **26 Mar (Fri): MBSAA Spring Celebration**

### **Food for Good! Food for Thoughts!**

Food brings people together and Spring is a good new start, we are taking this opportunity to share knowledge and raise awareness on the importance of the intersection between food and sustainable development. Responsive approach to food production and consumption leads to healthy life and healthy planet.

**REGISTER NOW ▶**

*Registration is on first-come-first-served basis and space is limited. Please register on or before 19 March 2021 (Friday).*

### **Manchester Global MBA Alumni as the Speakers:**

**Mr. Luca Donati**  
**Founder of Qoffeetech**

Qoffeetech is the distributor of the TopBrewer, revolutionary coffee experience within Greater China market. He will be introducing all elements of sustainability along the coffee journey from bean to cup, looking at decisions around sustainable coffee sourcing, coffee equipment and ancillaries to make the best choices, whether it be personal consumption or business.

**Ms. Ruby O**  
**Chairperson of The Society of Food & Environmental Health (Macao); Director of Environmental, Social & Governance, Wynn Resorts (Macao)**

Ruby's role at work is to enhance the integration of environmental-friendly and socially responsible practices into the operations and demonstrate sustainable luxury is achievable. Ruby has been the pre-opening leadership team of few integrated resorts and lead multiple organizations to achieve international food safety certifications. Ruby is regular speaker at conferences on various food safety and sustainability topics. She also regularly hosts workshops and seminars in the community in a vision of transforming sustainable local actions into global impacts.
